Blurb

I'm a 22 year old software engineer with a penchant for web applications. Technology excites me and I want to build things that delight others.

Education

B.A.(Mod.), Computer Science
Trinity College Dublin, 2017, First Class Honours.

Dissertation

“A functional framework for managing competitive programming events” A practical investigation into the feasibility of executing arbitrary untrusted code in hardened docker containers.

Experience

Software Engineer **May 2017 - Present**
PageFair, Dublin. Building services that help preserve the open web.

Software Engineering Consultant **Aug - Nov 2017**
Surve, Dublin. Developed new timeseries data reporting systems.

Software Engineering Intern **May - Sep 2016**
PageFair, Dublin. Performed in-house research and development.

Mobile Application Developer **May - Oct 2015**
Trinity College Dublin, Dublin. Developed the university's student identification mobile applications. <https://mydigitalid.tcd.ie>

Tools

Prof. exp. with: *nix, ES5+6, Node, Elixir, React & Redux, Rails, Docker, AWS(ec2, r53, cf, vpc, ecs), SaltStack, Jenkins
Exp. with: Phoenix, C, Python, Angular1, css preprocessors, Electron, Ionic, Digital Ocean
Dabbled in: Rust, Haskell

Languages

English(C2), Irish(A2), Swedish(A1) *CEFR

E.Curricular

Considerable involvement w/ the Dublin University Computer Science Society: committee roles included developing the society's registration applications. Other open-source contributions and fun side projects live on my Github.

Interests

Vim(dotfiles), Functional Programming, Elixir(Erlang, OTP), Games(Video & Board), Pottery, Multirotors, Swedish
